PROJECTS

Utility Design and consulting Ltd

Url: <https://utilitydc.co.uk/>

Duration: DEC 2024

Technologies used: HTML, CSS, JavaScript, Bootstrap, WOW.Js, Animation.css, Bootstrap Icons, Email.js

- Developed a fully responsive web portal to showcase energy services including SCADA, SAS, BEMS, EPMS, RTU, and power system studies
- Designed interactive user interfaces using HTML, CSS, and Bootstrap for a seamless browsing experience
- Integrated job vacancy listings and candidate submission forms for recruitment functionality
- Used Email.js to automate form-based email notifications for job applications
- Implemented frontend animations using WOW.js and Animate.css to enhance user engagement
- Ensured cross-browser compatibility and mobile responsiveness across devices

INCTrichy - Trichy District Congress Committee (Urban) Official Website

Url: <https://inctrichy.com/>

Duration: FEB 2025 - MAR 2025

Technologies used: PHP, MySQL, HTML, CSS, JavaScript, Bootstrap, WOW.js, Animate.css, SMSGatewayHub API

- Designed and developed a responsive, dynamic website to showcase party leadership, blocks, and ward member details
- Built a secure admin control panel for content management, including news, ward details, and contacts
- Implemented a manual SMS messaging feature using SMSGateway API, enabling the admin to send birthday wishes and meeting information by entering the recipient's number and date directly through the panel
- Integrated MySQL to manage member data and log sent messages for tracking purposes
- Used Bootstrap for mobile responsiveness and WOW.js + Animate.css for engaging frontend animations
- Deployed with performance optimization, cross-browser compatibility, and accessibility considerations

Multi-Currency Invoice System - Honeybee Engineering and Innovation Pvt. Ltd.

Duration: APRIL 2025 - MAY 2025

Technologies used: HTML, CSS, JavaScript, Google Firebase (Realtime Database), Firebase Hosting

- Developed a responsive web-based invoice management system supporting INR, EUR, and GBP
- Implemented features for manual invoice number entry, customer and product data management, and due date tracking
- Designed intuitive UI for managing company and bank details, ensuring clarity in international invoices
- Integrated Firebase Realtime Database for real-time data synchronization and multi-user access
- Deployed the application using Firebase Hosting for fast, reliable, and secure web access

Delightful Pharmaceutical Web Application

Url: <https://delightfulpharmaceutical-8c977.web.app/>

Duration: MAY 2025 - MAY 2025

Technologies used: HTML5, CSS3, JavaScript, Bootstrap, Animation.css, WOW.js, Email.js (for email handling), Google Firebase

- Designed and developed the front-end user interface using HTML, CSS, and JavaScript
- Integrated Firebase for backend services, including authentication and real-time database
- Implemented dynamic product management and invoice handling using JavaScript
- Ensured cross-browser compatibility and responsive design using Bootstrap
- Added engaging animations with Animation.css and WOW.js
- Integrated Email.js for email communications
- Managed deployment and live hosting on Google Firebase

Solotime Center Web Application

Url: <https://solotime.in>

Duration: JUNE 2025 - JULY 2025

Technologies used: HTML5, CSS3, JavaScript, Bootstrap, Email.js (for email handling), Google Firebase Authentication, Realtime Database.

- Designed and implemented front-end using Bootstrap and custom CSS.
- Integrated Firebase backend for seamless data management and user authentication.
- Developed custom admin dashboard with protected routing.
- Ensured cross-device responsiveness and accessibility standards.
- Deployed the website via Firebase Hosting and set up custom domain solotime.in.
- Integrated Email.js for email communications
